### Description

Well-known author Marilyn Brown Oden, award-winning author of twelve books, has again written a fast moving cliffhanger to join her other two novels Crested Butte: A Novel (historical fiction) and The Dead Saint (international intrigue). The Santa Fe Secret takes place in the oldest town still occupied in the United States, and is full of the charm and interest of that city. Oden interweaves the nearby and very contrasting presence of Los Alamos, the spot where some of America's most deadly weapons have been developed to bring us a unique tale of mystery and suspense.
